Chapter 1 - Can the method of proposal alter the other party's decision?

Proposals are deemed to be lovey-dovey and memorable for lifetime. However, large number of males end up spoiling the whole scene and turning themselves boo- boo (embarrassed) in the whole process. In case you desire to know the right manner to propose to your girl, always remember this: it does not need to be cheesy or expensive, it simply takes little bit of your ingenuity.

Yes, it is not at all an easy as a pie thing for the men when it's about proposing to your dream girl, who have turned their innumerable nights go sleepless just looking at the moon or turning sides on the beds. But as per my knowledge these men are a gigantic thing to deal with. These guys can break a limit when it is about making an offer to a girl.

You may be planning to bid a gal on date, but also at the similar time quivering with awe at the very thought that the girl might say a big 'NO' to your offer. Each and every girl

fantasizes of getting proposed by a guy some day. It is really a hard task but not beyond the bounds of possibility. A good offer is for sure to be acknowledged and even sometimes alters the decision and mind-set of the girl about you just within few seconds. Therefore, it must be done cautiously **"Handle with Care"**.

Follow the below given proposing tricks in order to make your proposal get big 'Yes' with a smile on your girl's face:

- *Make it highly personal:* There is no excuse to copy cat an idea from movies or somewhere else, especially since both of you must have countless shared experiences. So you exactly know what she really likes. Prepare a stage prior to you pop up the question. Use your charm and humor to make your girl feel congenial in your company. Exchange idea and share small talks in order to make her reveal her likes as well as dislikes.
- *Make the Fairy Tale reality:* Every girl, somewhere in the nook of her tender heart has her own beautiful fairytale locked that she would definitely wish to be unlocked so that it could fly high. If as a boy you desire to unlock this dream for your girl, the proposal is an ideal method to do it.

- *Be a Gentleman*: Stop behaving as a boy like altering your name or stop becoming jealous. Dress up like a gentleman too.

Chapter 2 - When to propose – Timing is important!

Deciding the time to propose or when it is the correct time to ask for a girl's hand, can be truly stressing decision to make. You have been socializing around with that "special someone" for a long period. You really adore her, love talking with her, can't resist her, want to spend some time with her and so, so on. But, you are in predicament now.

You have been for sometime thinking that whether she is the girl you can spend your life with and whether it is the correct time to propose her or say "I love you "to her. Many guys struggle with the nerve-wracking decision of when to propose and of course the awe of rejection flies high. With all such fantasies and fears in the mix, it is difficult to conclude when it is the right time to propose a girl.

There are several cues and cues that you can utilize to decide when it is the correct time to make proposal. Read the given below guidelines

that will help you to know the accurate time to propose the girl:

Be sure about yourself: If you do not want to say those three magical words and regret afterwards. To be highly sure about yourself, answer the following questions:

- Can you live the rest of life happily with her?
- Does the two of you share a good compatibility level and mutual understanding?
- Does a thought about her bring a sunshine smile to your lips and butterflies in your tummy?
- Do you simply forget yourself in her presence?

How does she feel About You: Try to reveal out whether she also has same feelings as you have for her? In case the girl does not possess the same feelings for you like you have for her, then you risk losing even her friendship by conveying your feelings. To find this out, answer the below given questions:

- Does she share her emotions regarding the important things in her life with you?
- Have you ever met her family?

- Is she always there, even if you have a pin-size problem?
- Is she able to understand what you are about to say, even prior to you utter those lines or guess exactly what you are hiding from her?
- Does she love your gawky looks, when you are not dressed properly?

If with God Grace the answers of all the above given questions are positive then do not wait even for moment, just go and express your divine feelings to your girl that how much you love her.

Chapter 3 - When NOT to propose

When you ask the hand of a girl with whom you would love to spend your life till eternity, it must be certainly a monumental time, memorable moment that you both love birds will recall and cherish for the years to arrive. Tales that you will wish to narrate again and again as you travel down the lengthy road till becoming old wrinkly prunes together. Precisely, it must not at all be lame.

If you truly desire your significant half to say "YES", you really require avoiding the wrong time to make proposal. Here are some hints When Not to Propose!

- Over the Telephone: *Hi, um, Hello sweetheart, I actually, err, Love you and I was somewhat wondering in case, um, if, uh, you will-*
- *Hold on please I have got some other important call so I would have to put your call (You) on hold...*
- Yep, proposing over the cell phone without any doubt an obvious "NO-No". Just give a thought to it, you have no clue what exactly your beloved will be busy in when you make a decision to call her and propose her. She

could be shopping for haggie cat food at shopping marts or picking up their nose in their cars. Gross! One requires proposing a girl in person.

- Proposing the girl at a big event or Sports Stadium: Proposing a girl during a sport is extremely hackneyed ideas that a guy can think off, and you will not solely be sulking off your beloved but also pissing off the large mob of people who are not at all interested in making their pleasant time screwed up because of your personal matters. On the other hand, proposing your dream girl in front of the huge crowd is a bad-bad idea in case your consort feels awkward in front of the huge crowd.
- After a quarrel: *Baby, I am really sorry, I called you as @\$##\$*&&! I like you really, I swear! I love You, Please say yes.*

Your proposal to get into a committed relationship must not be evident by an infelicitous event such as fight with your girl. Plus, you do not mean that obviously. This is really a bad time to make the proposal as it will definitely backfire on you.

- When you are wasted: *Honey, I fricken' really love you Come on, please say yes! Hey, everyone we are both getting engaged Woooooo! You want to do few jello shots?*

In your alcoholic stupor, you might swiftly think that it is the right time for you to propose your significant other, but let me warn you, it is not at all. Even the girl may say yes in the drunken stupor, but later they might say "no".

Chapter 4- Would the most unique proposal method charge you a handsome amount?

True love is so deep, so rare and so cherishing. It is not surprising that you wish to stay and spend all your life with the girl you love from the bottom of your heart. In present times, trust in relationship is depleting as both the parties are interested more in themselves than in enchanting each other. In case you are a person of different persona and would not at all mind going an extra step to pop a question to your girl to spend rest of her life with you, you must propose her immediately when you firmly hold that you are prepared.

A proposal can definitely become an extremely memorable moment in your and your beloved's life. It is essential that you are completely sure that the girl you are going to propose to reply YES at the time you propose otherwise it will bring disappointment. The unique proposal method does not always mean that it would charge the boy a handsome amount. . A unique proposal will be the one which is creative, innovative, interesting, and memorable and not typically a burden on the pocket.

There are so many unique methods to propose a girl in an expensive but loveable way. Just check out the below given innovative and interesting methods for proposing without shedding much dollars.

- **Book:** This is the most complimentary way of proposing the girl. If your darling is a literary genius or fanatical reader, you should check out this innovative option. The idea of writing a book is specifically fruitful in case you are in a relationship from a long time. You can pen down happy and unique moments of your bonding and why you value the girl so much. Write the book with your own hands. Publish a sole copy and then gift it to your significant half with the love proposal on the very last page.
- **Garden:** If you adore gardening and your girl loves flowers, this is a perfect and an extremely touching method to propose. However, this way needs you to design your garden fastidiously. Keep a different patch for this idea, plant flowers in letters that spell " LOVE YOU " with name, bring your significant half blindfolded to the garden and surprise her.
- **Boat Ride:** Nothing in the planet can be more romantic than going to the beach, lake or sea with nothing but Mother Nature all

around. Take your sweetie-pie for a peaceful boat ride and express your feelings.

Chapter 5 - Take the untraveled road – some out of the box proposal ideas

There is no such phrase in English Language that is more rehearsed than the dialog "Will you be my Valentine?"

All the guys who are thinking to make love proposals are usually a silly bunch, in desire of calming measures and hand-holding. But after you have accumulated the nerve to pop the question to your empress to be yours forever, you might find trouble getting the flawless way to make love proposal.

Trust this or not, girls fantasize about the time when their Mr. Right would propose them and hope that the time is divine in every possible way. All the love proposals made over a candlelight romantic dinner at a lavish hotel can truly be very endearing but they are not at all creative or unique. Thus, if you dream to make your love proposal both victorious and successful, choose the untraveled road.

Let's have a rendezvous with some unique ways to propose your dream girl:

- *With an exclusive and special ad in the newspaper or magazine she is fond of:*
Placing an ad in the periodical or magazine that your significant half reads daily is an inexpensive and a unique idea to propose your empress. The ad may read "Seeking woman named so & so to spend her whole life till infinity with me or you may put a big graphical ad along with the photos of two of you with your love proposal. But, you must make sure that your girl reads that page, otherwise this grand unique idea may go flop.
- *In the middle of a romantic movie:* This is an idea which is both romantic and unique. Pay or request the multiplex to stop the film and roll your slide show pictures with your partner. In this slide show also attach a small video clip of you telling how much you love her and what she means to you. The staff of the multiplex can stop the film either by announcing that there is some technical fault or they can start the slide show during the interval.
- *30.000 feet high in the infinite sky:* Take the girl sky high on an airplane ride and tell the stewardesses about your plans. Tell your girl that you are going to fetch some water and request the attendant or pilot to

make an announcement saying: Hello to all.
We today have a very special guest on the
flight with us (your girl's name here)
sitting in seat 'A', row 8. Take the
microphone and speak your heart, speak about
the depth and infinite love you have for
her. A love proposal in the high sky will be
really the most memorable one.

Chapter 6 - Locate her areas of interest and plan the proposal accordingly

There are plenty of ways by using the ones you can propose a girl of your dreams. Unfortunately not every idea will be out of the garden home runs.

If you walk behind the girl of your dreams and point your fingers shaped pistol into her back and say" you are under arrest for thieving my heart". It's but obvious that after this you will get a bang on slap "Boom "right on your face. Knowing the girls likes and dislikes and proposing her the way she would adore and not proposing her through the way she hates is extremely important. Therefore, locating the areas of interest of a girl is highly vital before proposing her and to enhance the chances of getting perfect Yes.

Talk and get the help of her friends to avail all the juicy information about her and to know the things and settings she bow to or first simply be friend with her and talk and talk in order to know what all she loves and listen to her carefully.

If she is already your friend and you both hang out with each other many times casually, then just take a notepad and broach reminiscing about those times when you both had casual meetings and pen down all the moments that you can recognize. Think back that which of the activities your Princess cherished the most. Even think of the spots that became extremely close to her delicate heart. For instance, if your Fairy loves sunrise or sunset take her to the beach, then arrange a romantic setting with flowers she loves and scented candles all around to create a romantic ambience and the moment the sunrises or settles down (what she is fond of) propose her with your complete heart. Try to arrange something that will make your girl go spell bound. This will be the sweetest proposal that you could plan for her.

There are some girls who are gripped with action figures, superheroes or toys. They may be fond of the Steel Man or Dark Knight just like any other male. A thought could be going to a party through parachuting or something else that may appear like a flying act of her most favorite superhero. In case you wish it to be gigantically memorable; you can even wear the costume.

Use the interests of your queen as the backbone of your love-packed proposal and make that moment a divine one.

Chapter 7 - Should you bring in a few friends or should it be between just the two of you?

Men and Women are always keyed in variedly. Both are always striving to know and understand one another, but not everyone really succeed. Love is one thing regarding which both men and women have the most disparate perceptions. Most women dream of their proposal day and that they have been fantasizing since they came to know what love really means. For all women, their proposal day is when the whole planet revolves around them and the love proposal should be phenomenal also. Some men forget that love proposal is as important to the women like the marriage itself. Call it simple fault of judgment or dearth of creativity, some boys just do not do this right.

It is a bad idea to bring your friends along to propose a girl. Even if she wishes to say yes, she will never. It should be a relishing romantic moment just between the ADAM (you) and the Eve (your girl). Bringing your friends along with might make her feel nervous and shy. Instead of getting romantic she would really get infuriated on you. She would feel as if you want to boast in front of your friend group that you are Mr. Popular and every girl wants to be with you which will in turn put a really bad

impression of you in her mind and she might say BIG NO.

She might even think the other way that you don't have the balls to propose her on your own and even for this very purpose he requires the help of his friends. This will again stamp a bad impression of yours on her heart that you do not have the capability to do anything in your life on your own if you cannot even propose girl by yourself and need your friends help. This is because all the EVES want a guy who is strong, confident and manly enough to take care of their beloved from this strange and harmful world. Moreover, it usually happens that when a guy takes his friends along with him he himself starts shaking, forgets to speak and do many things that he has decided to do to make the proposal memorable one. So if you won't be able to speak about your love, emotions and vibes completely to her how would she realize the depth of your love and her worth in your life?

Therefore, when you are planning to propose your girl do it by yourself and that moment must witness just two of you. However, you can always take help of your friends in exploring her likes and dislikes and to make arrangements to make the proposal special. What are friends for? But

when she arrives or you go to her to propose her
it must be just between both of you.

Chapter 8 - Should you pop the question over dinner?

Yes, she is the one for you! No question regarding this. You have ultimately found perfectly wonderful girl on the planet. The one eternal love that you desire to spend your whole life with and you believe that this pretty woman is made by the Almighty just for you. You intend to propose her and you are racking your minds to get the most romantic proposal idea. There are loads of ideas to select from but you wish to have only the one that is wholly and solely perfect for your dream girl. Then proposing the girl over dinner is the most wonderful idea. Romantic dinner is regarded as a classic way for proposing your Angel. Switch off the lights and play some romantic tune to switch on a romantic mood in her.

Make your sweetheart realize that how much you are in love with her by initiating out right-with the romantic dinner love proposal. In case you are searching for innovative ideas on the method to plan a romantic dine to propose, here are few bulls-eye suggestions:

Check out the following suggestions:

The most applied and champion way to pop a question to your significant half is over a

romantic candlelight dinner. Take your beloved to her most favorite place. Or to a place that you have visited and you can surely swear by. This is not at all the time to experiment with a new hotel; you would have to possess as much predictable and controlled aspects here as much possible. Make reservations beforehand, especially in case it is a celebrated restaurant that you are thinking to take your girl.

You must plan out the romantic dinner carefully, making all arrangements in advance as it is the most important and special day of you and your girl's life. Ask the server to bring out a bouquet of red roses or the flowers she loves accompanied by a toast and pretty box having an engagement ring. When she receives the roses, instantly ask her to be your girl till infinity.

In case you wish lots of privacy, it is great to plan the dinner at your home. No need to worry about preparing the food. You can have two suppers-to-go from your girl favorite restaurant. Otherwise, take her to a decent restaurant that features a quiet but romantic ambience to pop up the question. Based on the situation, you can just kneel down with a ring and ask for your 'Queen Beautiful' hand pre or post dinner.

Chapter 9 - Should you tell her through her friends?

The moment you have ultimately decided to make love proposal to your girl, you are extremely sure that you would get only one shot to say what and how you really feel from the whole heart about the girl. You desperately desire to do it in the manner that reverts with an aspirant "yes" answer but in case you mess it up badly there are slender possibilities of getting the precious **"yes"** later on.

One such mess is proposing the girl through her friends. It is absolutely incorrect and big no-no setting to convey your love proposal through her friends. It would not at all get you an affirmative revert and you might end up getting a big no for your proposal. Therefore, always express your emotions, your feelings and your own self using your own guns. Every girl has her own magical dream world where she has some expectations about how her Prince Charming would propose her. Yes, how her Prince Charming would propose her directly not through her friends. It sounds even acceptable as every girl wants that the guy who says that he loves her must have that amount of guts and confidence to straight away come to her, look into her eyes and admit

that he loves her. If he does not possess even this amount of courage then how will he protect and take care of her the whole life.

If you wish to woo a girl and wants to make your girl sigh dreamily whenever she thinks of you then proposing her through her friends is a bad idea, mind it. Yes, one can always take the help of her friends to make the proposal special and memorable but conveying the message that you love her through her friend's mouths is not at all recommended.

Rather you try to be friends with her first, know her likes and dislikes, her strengths and her weaknesses. When both of you become good friends and start hanging out then propose her. Always pop the question when two of you are alone. Ask her directly to go out with you rather than texting, getting her friends to ask her out on your behalf or beat around the bush, simply ask her. Even in case you are shaking, this will in turn enhance your chances as the girl will admire your confidence that you are not supercilious about it. Do not be scared of rejection as girls have huge hearts and will not at let you down so easily.

In order to make the love proposal special and emerge out as a triumphant, do it yourself.

Chapter 10 - How to gather the courage to ask her?

You gravely want to propose your dream girl and even your near and dear friends are egging you to propose her. Your friends even say that it won't hurt. But you think the opposite way that "Of course it will". Therefore, you funk and wait so that you can decide and gather some courage to ask her.

According to the punch line of a celebrated shoe brand, it honestly would not hurt in case you simply "just do it". Most guys reckon to be tigers as they are extremely confident, outgoing and know exactly what they need. But when it comes to women they fancy, from tiger they become rats. Their ego falls right down or erupts through roof and they become too shy or jerky and extremely unsure about what to speak. As already mentioned the fear of rejection is the major cause for their shyness and is perhaps a common predicament with heaps of men population, all talk and talk but no walk.

There are certain ways through which you can muster up plenty of courage to propose the girl you fancy:

- ❖ **Head to the internet:** There are lots many ways, tips and trick mentioned on the internet to propose a girl. Go through them and the one that you find is the best and by applying which you surely will get yes. Do it.
- ❖ **Take the help of her friends:** Take the help of her friends in order to know about her choices and in steeling an environment to prose that she won't be able to resist.
- ❖ **Be yourself:** At the time you propose your girl just be yourself. No need to behave like any actor or any other person. Being yourself will certainly make you feel confident and it would for sure impress your girl like anything. Confidence will automatically come when you know that you are being completely yourself, not concealing anything. Girls have a 6th sense by means of which they can sense the honesty of boys. When every arrow coming from your heart will touch and strike the girl's heart straight away she will definitely say yes.
- ❖ **Do not dress sloppy:** If you dress awesomely it will also give you inner confidence. So make it a point to dress elegantly.
- ❖ **Make her laugh:** When you will make her laugh and watch that she is listening to you and is taking interests in whatever you are talking will also give you courage to propose her. Moreover, when you will talk

laugh with her, laughter will sweep away all the fears and tensions from the mind as laughter is a good therapy to hush away tensions. When the two of you will laugh together it will give to both the feeling that both of you are one soul as they say the couple that laughs together stays together till eternity.

Conclusion

So, are you all charged up to pop THAT question to your beloved? We are more than hopeful that you must now be all prepared to lend a verbal shape to all the wild and romantic thoughts that may be running through your mind all this while.

You know your girl - her tastes and her preferences! So, just try to build up the whole proposal set-up around the liking of your sweetheart. For instance, the very idea of proposing on the beachside at dawn sounds utterly romantic but if the girl has absolutely no inclination towards surfing, swimming and sailing; what is the whole BIG idea? Your sole intention is to impress her so try to identify her flavors and make it a point to pay heed to all of them while planning to propose to her.

Last of all, keep your cool. Even if you have butterflies in your stomach (which obviously you will), make sure that it does not show on your face or anywhere else.

We earnestly hope that you win over your sweetheart's heart! Lots of Luck!
